

Year-round CAMPUS

Graduate in less time, with
less cost, and less debt.

*See your advisor to see how
YRC can work for you.*

In your college search, you likely encountered some core fears that all college-bound students face:

Rising costs, lengthy completion times, and crushing student loan debt causing many to question the value of higher education.

But you made a great choice. You chose the University of Mary, one of the nation's most *affordable*, private Catholic universities.

Did you also know Mary offers another solution for graduating in less time, with less cost, and less debt?

YEAR-ROUND CAMPUS

By adding a full summer semester, Year-Round Campus (YRC) allows you to study throughout the year so you graduate sooner and get a head start on your life and career. YRC is the solution to the fears experienced by college-bound students.

Perhaps best of all, YRC offers a dramatic **lifetime financial benefit:**

- **Nearly \$320,000** with a bachelor's degree in 2.6 years
- **Over \$630,000** with a master's in four

You can learn more at yearroundcampus.com.

HOW DOES IT *Work?*

What's the summer schedule?

Unlike the traditional sleepy summer semester, YRC enables you to take a full load of classes while enjoying a vibrant campus life just like fall and spring—complete with outdoor activities, excursions, guest speakers and visiting scholars, and employment opportunities.

Where will I live? Eat?

The summer semester will be treated just like the fall and spring, offering students full housing and meal plans to meet their needs—and best of all, it comes at a discounted rate.

How is this different from summer school?

Unlike traditional summer school, YRC offers a full semester of classes. As a student in the Year-Round Campus program you will carry an average course load of 15-16 credits for nearly every term.

I'm a student athlete. How does this affect me?

As a student athlete, you will take less than 12 credits in the summer, so as not to use a semester of athletic eligibility.

What about tuition, scholarships, financial aid?

You will receive your “yearly” scholarships every two semesters. *For example*, if you receive a \$3,000 “annual” scholarship you will receive the first \$3,000 for the fall and spring semesters and the next \$3,000 for the summer and fall semesters—and so on for the full term of the scholarship.

Federal and state aid—including grants and loans accessed through the FAFSA—will be available to you even during the summer months. Mary even provides a grant to cover the Pell Grant over the summer.

Am I locked into Year-Round Campus?

No. We have “on-ramp” and “off-ramp” options to meet your specific needs. No matter what, we will work with you to develop a degree plan that minimizes your time to completion.

The Net Result? A Sweet Deal.

YOU'LL PAY LESS...
residence halls cost 1/3 less in the summer semester.

YOU'LL STILL WORK...
summer jobs are available. *Work Campus is coming soon!*

YOU'LL SEE THE WORLD...
Study Abroad options are available in the summer.

YOU'LL GET AHEAD...
in your career and finances.

YOU'LL HAVE FUN...
there's no better place than North Dakota in the summer!

 Adventures in learning: University of Mary students experience unique opportunities such as working on a professional film set and hiking in our beautiful Badlands.

 By adding a full summer semester to the school year, our innovative Year-Round Campus positions you to earn your undergraduate degree in 2.6 years or your master's in 4.

 We're a campus for all seasons, and with Year-Round Campus you graduate with less debt and look forward to a dramatic boost to lifetime earnings.
