Helpful Tips:

- ◆ Except for the first word and proper nouns, each of word in a citation is lowercase.
- ◆ Journal title is abbreviated according to National Library of Medicine database.
- ◆ References should be numbered consecutively with Arabic numerals in the order in which they are cited. Each citation in the text must be listed on the Reference page. Each listing on the Reference page must appear in the text.
- ◆ References are listed numerically in the order they are cited in the text of the paper. Put a period after each number.
- ◆ Single space each reference. Double space between references. There are no hanging indents.
